How to change your primary care physician (PCP)

During your **Aetna Better Health® of Oklahoma** enrollment, you were encouraged to choose a PCP. If you didn't choose a PCP, we selected one for you.

Your PCP is important because they are responsible for managing your overall health. A trusted relationship with your PCP allows you to openly express your health concerns. And helps your doctor better coordinate treatment for those concerns — promoting overall well-being and peace of mind.

But it's important to remember you can change your PCP at any time.

There are two ways to change your PCP:

1. Call Member Services at **1-844-365-4385 (TTY:711)**, 24 hours a day, 7 days a week.
2. Log on to your Aetna member web portal and contact us.

Here's how to change your PCP on the member web portal:

- Visit **AetnaBetterHealth.com/Oklahoma/member-portal.html** and click log in.
- Once you've logged in click the My Account tab in the top left corner. Under My Profile on the left side click contact us.
- Choose the category "Change PCP". Tell us the name of your current PCP and the name of the new PCP you'd like to have. Then click send.
- We'll send you a message to the member web portal inbox. Or if you'd like us to respond with a phone call include your phone number.
